

Vistaline tubular towel rails

Slim vertical tubes create an elegant design which also provides excellent heat output

Vistaline offers you the utmost style in a wide range of sizes and heat outputs. The L3H models feature an extra row of tubes to provide all the heating performance you could ever need.

There's also the choice of white as standard, or additional colours available to special order.

Finished in White (RAL 9010) as standard - other finishes available to special order. Manual or thermostatic valve kits available.
