

Wave radiators

Exceptional styling and heating performance

Wave creates a uniquely sophisticated focal point wherever it's installed. The fine tubes are precisely curved to produce a distinctive Wave that's also exceptionally efficient in terms of room heating. You have a choice of three sizes and heat outputs, in subtle Metallic Grey.

Finished in Metallic Grey. Manual or thermostatic valve kits available.

Product Code	Height (mm)	Width (mm)	Btu/h* Δt_{60}	Watt* Δt_{50}	Tapping centres	Centres from wall	Maximum projection
