$\Delta t50$ is the UK's industry standard for heating outputs, which has an operating temperature of 75/65/20°C. If you have a low temperature heat source you may wish to consider $\Delta t40$ or $\Delta t30$ output (see your installer or system designer or download from www.stelrad.com).

For EN442 data, technical and installation information please visit our website: www.stelrad.com and search product downloads.

COMPONENTS

LST i Plus Deco front case view.

LST i Plus Deco inside the casing showing the emitter.

LST i Plus Deco oblong knockout for pipe.

Optional cover cap to discourage unauthorised tampering.

An arthritic adaptor is supplied as standard for special needs environments.

Accommodated within the casing, the Stelrad LST i Plus Deco emitter, with TBSE valve arrangement and 2 x 1/2" BSP connections as standard.

Includes Danfoss RA-2000 TRV and copper pipe configuration.

The remote sensing thermostatic valve gives accuracy of operation and the limiting device is completely hidden to prevent the maximum temperature being exceeded.
